

Model D-HS with enclosure

Model D-HS Caser

## SLANT CASER

Your milk or juice product is processed, packaged and ready for the retail shelf. With a reliable Statco-DSI designed and fabricated caser at the end of the line, your product will be packed up and on its way to your customers in no time.

With over 400 casers in the field, these machines have a reputation for high production efficiencies, long equipment life, and low cost of ownership. These compact, high speed units are some of the fastest and most economical casers on the market today.

Statco-DSI manufactures our casers in house so we can customize the units to meet your specific production needs.
